From:	Celia Evanson NP, South Peace Medical Director
Re:	Staffing Announcement- Maternity Lead – Dawson Creek & District Hospital

I am pleased to announce that **Dr. Sandeep Sharma** has accepted the position of **Maternity Lead** at Dawson Creek & District Hospital.

The **DC Maternity Medical Lead** plays a key role in supporting and coordinating maternity services in Dawson Creek, ensuring continuity of patient care, adherence to standardized best practices, and alignment with the strategic priorities of Northern Health. This role also includes close collaboration with the Fort St. John maternity services lead to strengthen relationships, build trust, and support coordinated care across the Northeast for all maternity patients and families.

Dr. Sharma is a **Specialist Obstetrician & Gynaecologist** who has returned to Dawson Creek following an 18-month period in Alberta. He previously worked in Dawson Creek from 2022 to 2024 after relocating from the United Kingdom.

With **30 years of experience**, Dr. Sharma has extensive expertise in caring for women with high-risk pregnancies and performing a wide range of surgical procedures. He has special interests in **Colposcopy, Menopause, and Vulval Health**.

Outside of his clinical practice, Dr. Sharma enjoys **travel, hiking, running, golf, and cooking**. He is also a **qualified skydiver** and looks forward to embracing the Canadian winter by improving his skiing skills on Bear Mountain.

Please join me in welcoming **Dr. Sandeep Sharma** into his new leadership role.

Sincerely,
Celia Evanson,NP
South Peace Medical Director
